

Transfer Value Quotation Timescales

In recent months the Trustees and the Scheme's administrators have noticed an increase in the number of requests for transfer value quotations.

We understand that your pension benefits are important to you and the need for members to be able to make informed decisions when planning for their retirement.

As the calculation of the transfer value can be complex and requires input from the Scheme actuary, it may take up to 4 weeks for the issue of the information from the date of the request. We would ask members to bear this in mind when requesting a transfer value quotation.
